CONFIGURING GROUP KEYS ON THE REMOTE

Default Group Assignment:
The **first 9 groups** set in the app are automatically assigned to the group keys **G1, G2, G3, and G4** and so on, in the remote.

These keys will function for the first nine groups from the app until **reconfigured.**

Accessing the Control Screen:
To configure the group keys, open the control screen for the remote in the app. **Long press** the icon of the newly added remote in the app to **access the control screen.**

PAIR

Entering Configuring Mode:
After opening the control screen, press and hold both the **'Pair'** buttons on the remote to **enter configuring mode.**

Assigning Group Keys:
Once the remote is in configuring mode, you can assign the group keys **(1, 2, 3, 4 and so on)** to the groups of your preference for easy access.

USAGE

Power Button -
To turn to the desired group **ON** or **OFF**, press the **'POWER'** button.

LOCK

Lock Button -
The lock button holds the current settings and disables other function keys. Press it again to unlock and regain full control of the remote.

ALL

ALL Button -
"Pressing the **'ALL'** button activates all connected devices. Once activated, pressing any function key will prompt all devices to execute the selected command.

CCT Presets -
The 4 CCT preset buttons allow you to quickly
switch between different light temperatures,
ranging from warm white to cool white.

CHANGE COLOR

RGB+

RGB-

Tune Color-
To switch between spectrum of
colours press on the
"RGB+ & RGB-"

RGB BRIGHTNESS

Control RGB Brightness-
Use the **'UP'** and **'Down'** arrows
to adjust the brightness of the
RGB lights.

PRESET BRIGHTNESS

SET Brightness -
These buttons allow you to instantly set
the brightness to 25%, 50%, 75%, or
100% for quick adjustments.

CHANGE BRIGHTNESS

Dimming-
To adjust the brightness of the
CCT intensity of the devices,
press **'Bright +' or 'Bright -'**
as per your convenience.

CHANGE COLOR TEMP

Tuning CCT –
To adjust the CCT color temperature, press the **"CCT+"** to increase or **"CCT-"** to decrease.

RGB PRESETS

RED	GREEN	BLUE

SET RGB Colors –
The RGB preset function includes three buttons: **Red, Green, and Blue,** allowing you to select each color individually.

Group Buttons -
To activate a group of devices, simply **press the corresponding Group button,** and the devices within that Group will turn on.

MANUAL UNPAIR

Press the Unpair Button:
Press and hold the **'Unpair'** button on the remote.

Hold for a Few Seconds:
Keep holding the button for a few seconds until you see a notification on the remote **(such as a light flash)** indicating that it is unpairing.

Remote is Unpaired:
Once the unpairing process is complete, the remote will return to its default factory settings.

Any previous pairings with the app will be erased, and the remote will need to be paired again before it can be used.

UNPAIR VIA APP

Open the Control Screen:
Press and hold the **remote icon** in the app to open the **control screen**.

UN
PAIR

Enter Configuring Mode:
On the control screen, press and hold the **'UNPAIR'** button on the remote to enter **configuring mode**.

Select Kickout in the App:
Once in configuring mode, tap the **'Kickout'** button in the app to **unpair** the remote.

Confirm Unpairing:
The **LED** on the remote will **blink 8 times** to confirm that the remote has been **successfully unpaired**.
